REGISTER

Successfully registered

This screenshot shows the registration page of the 'Myseapp' mobile application. The status bar at the top indicates 'VoLTE', '4G' network, '58%' battery, and '8:11' time. The app's title bar is blue with the text 'Myseapp'. The registration form consists of three input fields: an email field containing 'bvsg363@gmail.com', a name field containing 'Ganesh', and a password field with masked characters '.....'. Below the password field is a grey 'REGISTER' button. At the bottom of the screen, a dark grey rounded rectangle displays the message 'Successfully registered'. The Android navigation bar is visible at the very bottom.

REGISTER

Registration failed.
You may have been already registered

This screenshot shows the same registration page as the previous one, but with a failed registration attempt. The status bar at the top shows '17:55', 'VoLTE', '4G' network, '88%' battery, and '17:55' time. The app's title bar is blue with the text 'Myseapp'. The registration form has the email field containing 'snigdhanelli@gmail.com' (highlighted in yellow), the name field containing 'snigdhanelli', and the password field with masked characters '.....'. Below the password field is a grey 'REGISTER' button. At the bottom of the screen, a dark grey rounded rectangle displays the message 'Registration failed. You may have been already registered'. The Android navigation bar is visible at the very bottom.

Here's the registration page.

Here's the login pages.

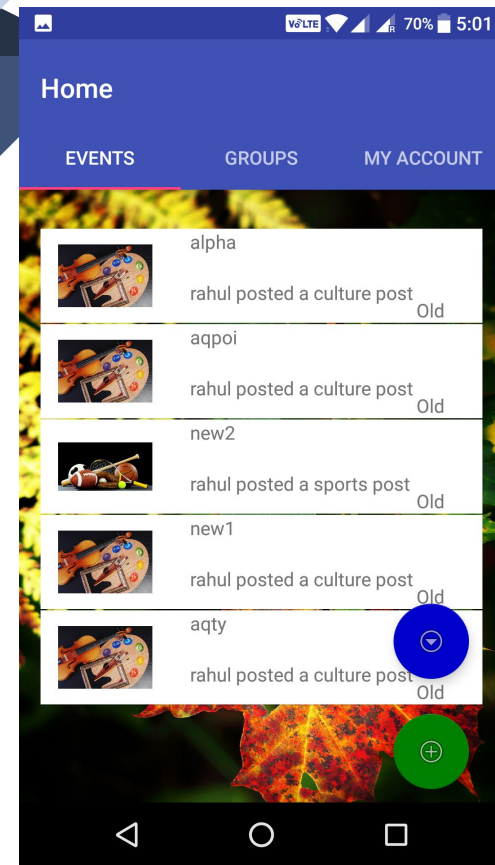

Here's the Splash Screen. In background, the app collects user data from database.

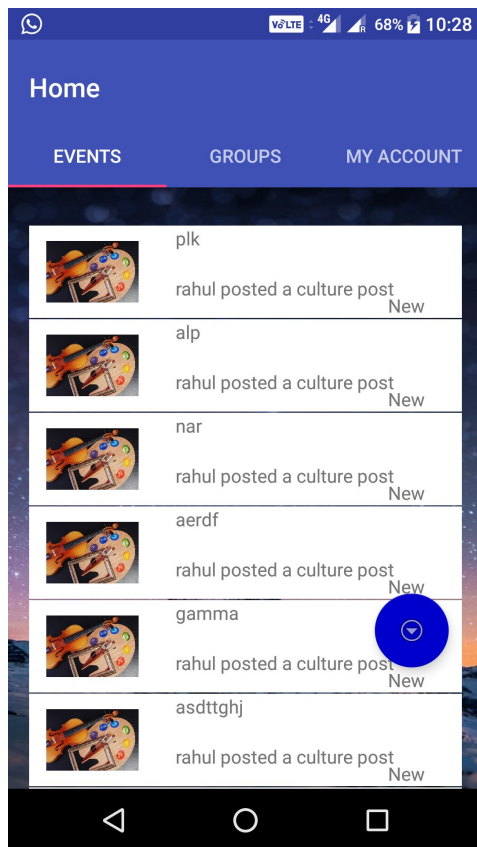

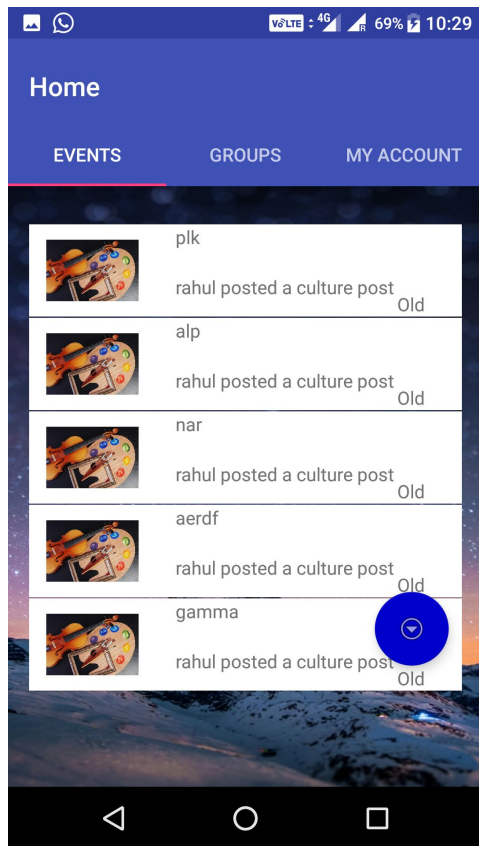

Home Page

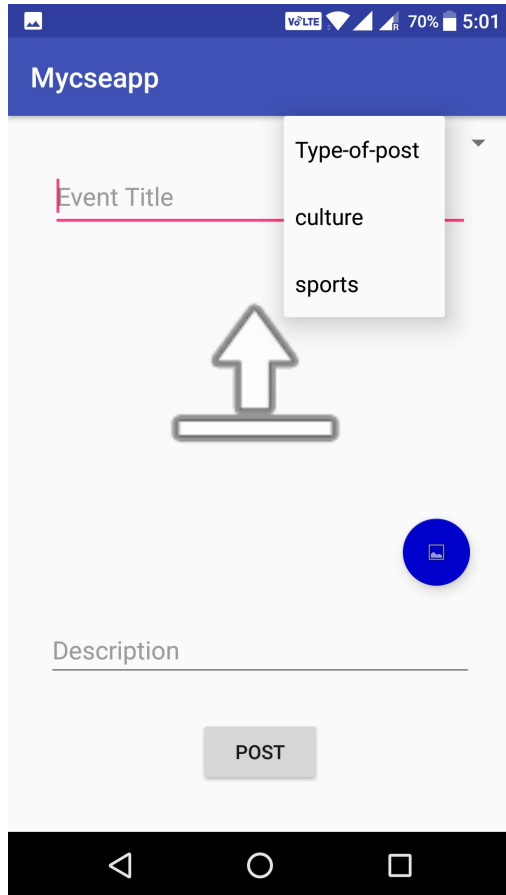

And then, You are logged in !! Here's the home page.

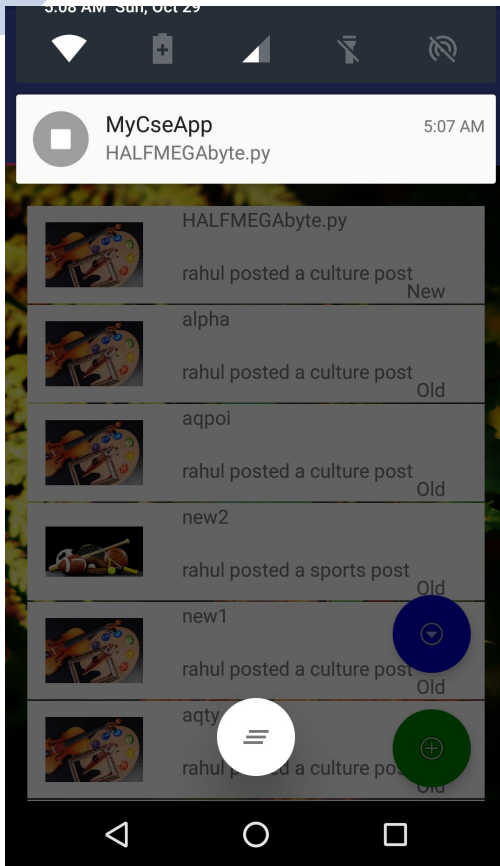

Events and notification

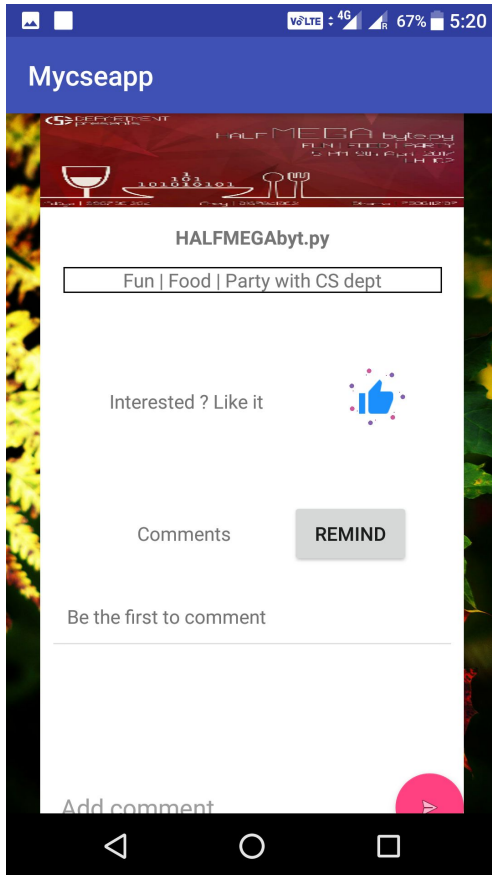

The app only loads the new events (if present) or 5 of previous events. You can load more by load more button

Only admin can upload events by the green button. Here's the upload page.

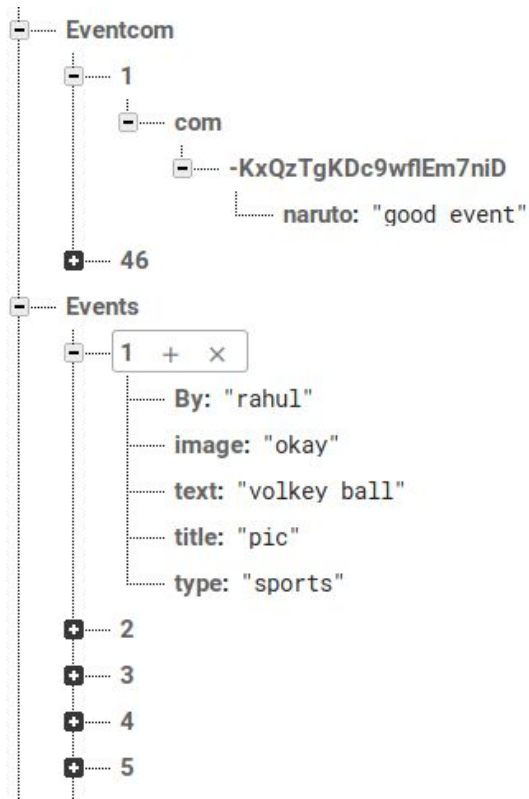

All events are notified. So you don't have to worry about missing any.

Here's the event description page , loaded upon clicking on the event.

Here the user can like , comment the event.

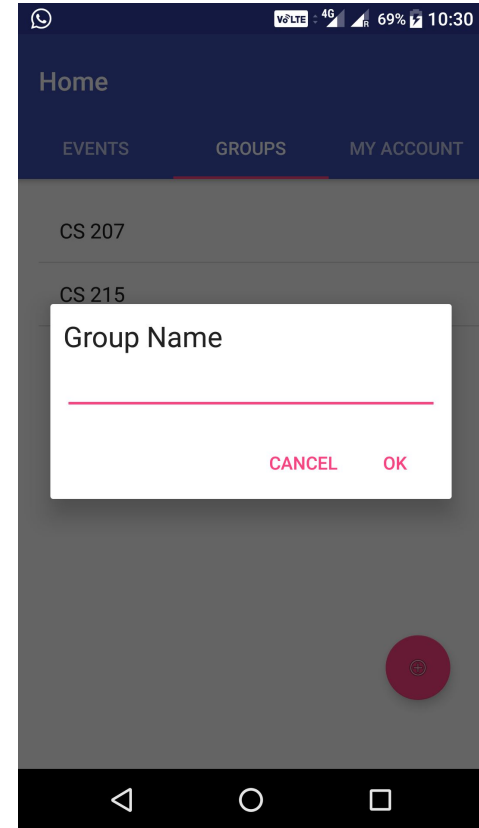

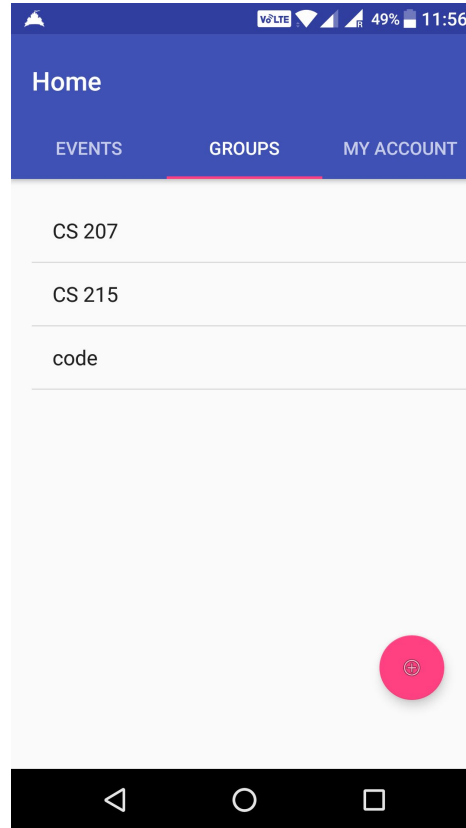

gs://mycseapp.appspot.com > Events UPLOAD FILE

	Name	Size	Type	Last modified
<input type="checkbox"/>	 1	136.78 KB	image/jpeg	Oct 27, 201
<input type="checkbox"/>	 2	123.64 KB	image/jpeg	Oct 28, 201
<input type="checkbox"/>	 3	123.64 KB	image/jpeg	Oct 28, 201
<input type="checkbox"/>	 4	74.45 KB	image/jpeg	Oct 28, 201

Here's how the events are stored in database.

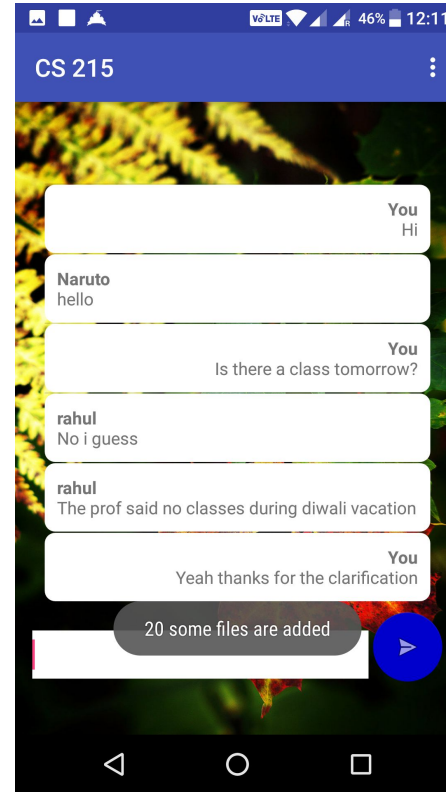

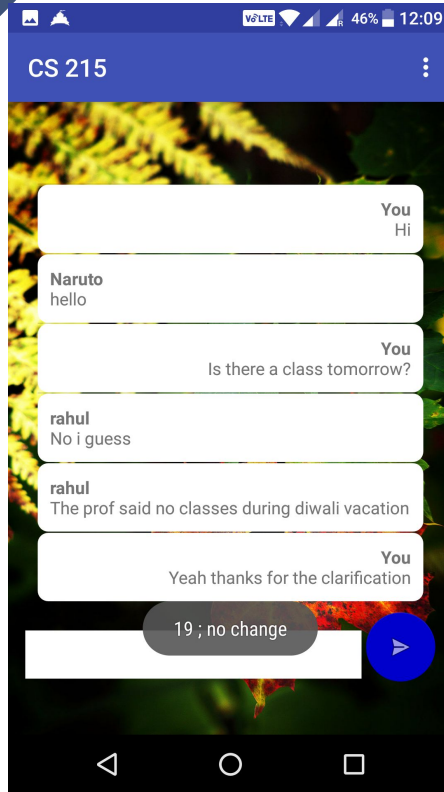

Groups

The groups page show the groups the user is in. He can add groups as well.

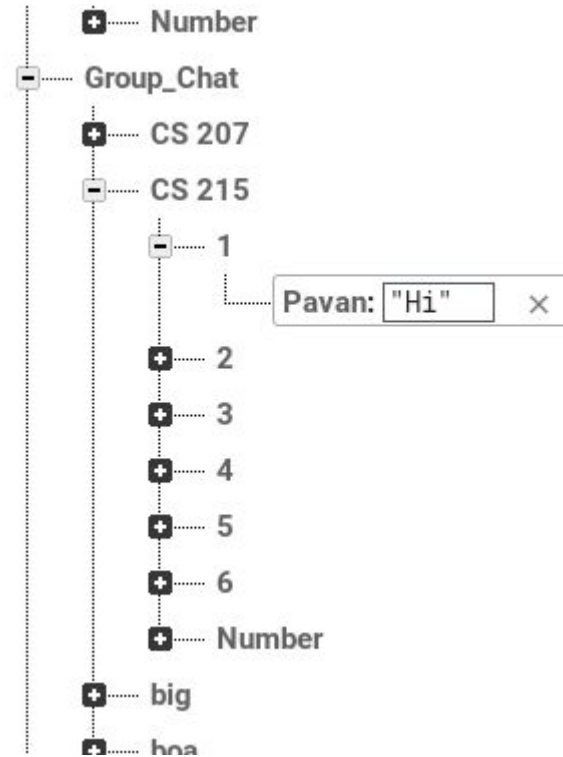

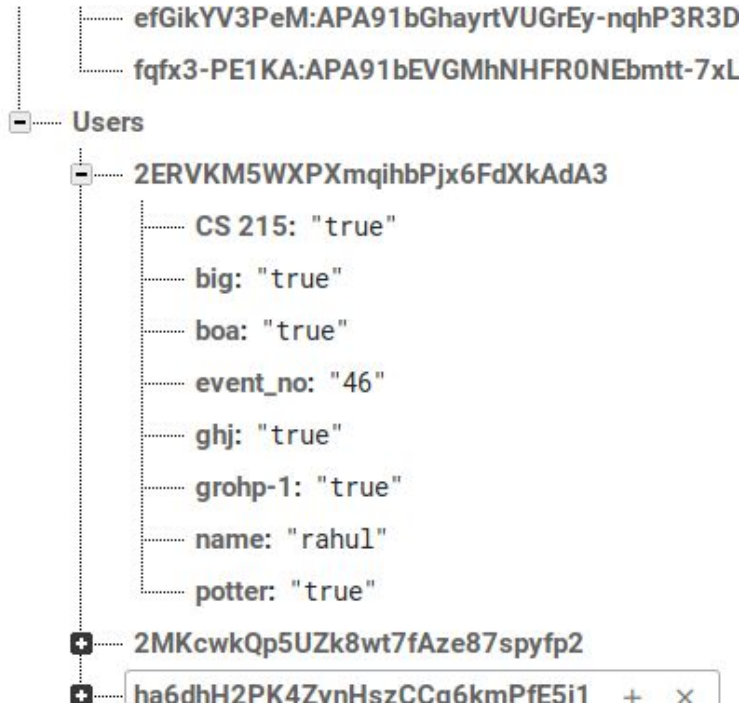

Here's a groups chat activity and the group menu. With which
The user can change add members, monitoring url , visit it , check
it's content

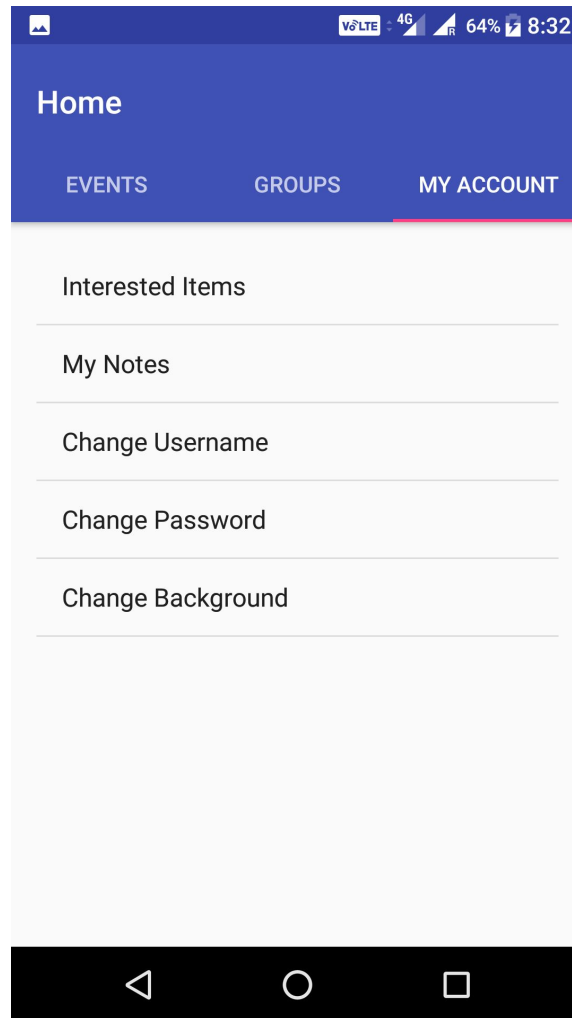

Here's the Web Monitoring.

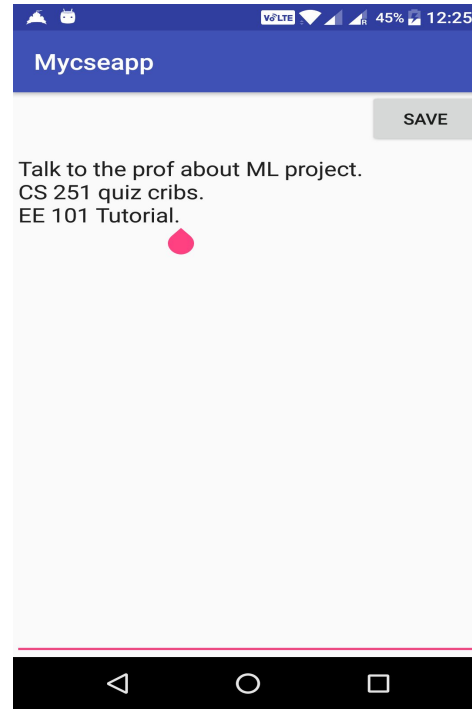

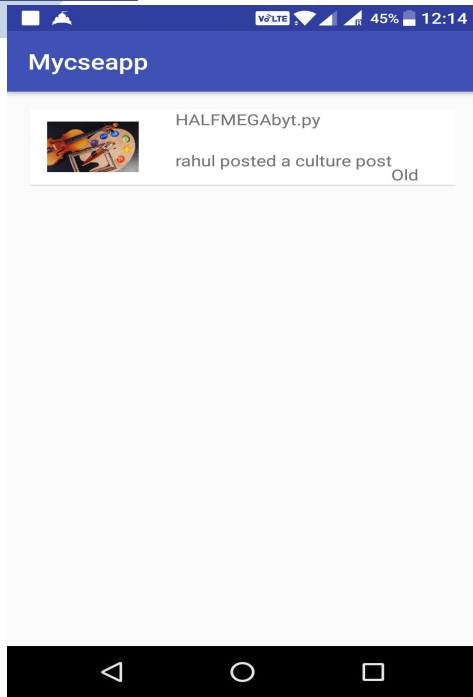

Here's how the groups and it's chats are stored.

My Accounts

Here are user's interested items and notes. And he can change his username password and background

Here are user's notes and his liked items.
